

CSE cables first year a huge success

CSE Cables are celebrating their first year as an independent cable distributor. CSE Cables were formed as a result of the increased demand by new and existing customers for cable from CSE Distributors. CSE Distributors already have an extremely good reputation within the HVAC Industry, having serviced customers throughout the UK since 1971.

As a result of increased demand for cable, a dedicated warehouse facility has been established, headed up by Corrina Cook, a well recognised and respected name within the cable industry. CSE Cables has gone from strength to strength within a relatively short period of time, and new customers are coming online on a weekly basis, both National and International. One of our most important priorities is customer delivery dates.

CSE Cables and CSE Distributors share an overlapping customer base.

It suits our customers to buy from us as our product ranges compliment each other, and we have access to each others stock making it easy for the customer to use us as a one stop shop. We use couriers and haulage companies to distribute nationally and internationally, we also have our own transport for same day local deliveries. We have been able to guarantee customer satisfaction thanks to our vast range of stock and extensive network of suppliers, including industry giant Nexans, who we have a strong business relationship with and who provide us with fantastic support. We expect to continue to grow in the future by offering unbeatable customer service and extremely competitive rates.

For any cable enquiries you can contact CSE Cables on 01628 850024 or e-mail info@csecables.com for any components or Drives enquiries contact CSE Distributors on 01628 529448 or e-mail info@cse-distributors.co.uk
